5001 American Boulevard West • Bloomington, Minnesota 55437
Phone (952) 893-0151 • Fax (952) 893-1918

We are pleased to announce that Machine Automation Products will be taking over for us as of April 1, 2006. The principals in Machine Automation Products are Barry Bian and Alan Williams. Alan will be responsible for our present territory; he is very well qualified and has had several years of experience in the indexing field as well as working with automation products. Alan's wife Denise will handle the office/inside sales.

Machine Automation Products' address is 10744 Yellow Pine Street N.W., Coon Rapids, Minnesota, 55433 – phone number 763-757-0198, fax 763-757-4724 and email awilliams@machineautomationproducts.net.

Please welcome Alan and Denise; we know you will find them both cooperative and competent to handle all of your needs.

We thank you so very much for all the business you have given us over the years as well as the confidence and trust you have shown us. It has been a pleasure to know you, and we know well that we will miss that personal contact. After twenty-nine years with this business and each of us having jobs prior to that, it is time to retire but we do so with mixed emotions as you might guess. Our best to you in the future.

Delores and Dick Stoltman
